

After the Floods Report Launch and Project Findings

UNIVERSITY OF
BIRMINGHAM

We would like to invite you to attend the Report Launch and Project Findings event for our Economic and Social Research Council funded **After the Floods** project. The project brings together University of Birmingham experts on hydrology, human geography and business resilience to examine how businesses, homeowners and communities across the UK are preparing for future flood events: <http://www.birmingham.ac.uk/research/activity/water/projects/esrc-floods/index.aspx>

Worcester is one of four areas in the UK that the research examined, and local businesses, community members, and experts involved in aspects of flood management have shared their experiences with the project team during the course of the research. The purpose of the event is to launch the project's final report, and to share the project's key findings, both in relation to Worcester, and the other areas studied in the project. By being involved in the event you will have an opportunity to shape how local experiences are captured in the project's findings and shared with central government decision making bodies.

Date: Tuesday 22nd of March 2015

Itinerary: 17:45 Arrival, drinks, and canapés
18.00 Key Project Findings – Presentation from the Project Team
18.30 Q&A
19:00 Close

Location: Worcester Racecourse, Pitchcroft, Worcester, WR1 3EJ

Directions: <http://www.worcester-racecourse.co.uk/about-us/howtofindus>
