

Open Homes & Community Energy Efficiency

FREE EVENT!
Refreshments
included!

A free event highlighting the new **Green Open Homes network** and how to deliver a successful community energy efficiency project.

12.00-16.00 | Thursday 24 October
CoRE, Stoke-on-Trent

To **register** go to:

<http://greenopenhomesstoke.eventbrite.co.uk>

This event is being run by the **Centre for Sustainable Energy** in partnership with **SHAP (Sustainable Housing Action Partnership)** and **Urban Vision Enterprise CIC**

Refreshments included

For **more information** contact communities@cse.org.uk

This event is aimed at community groups and volunteers who wish to make positive changes to improve the energy efficiency of the homes in their area.

The aim of the day is to give community groups some practical project ideas to take forwards.

It's also a chance for us to tell you about the **Green Open Homes network**. This initiative aims to get more groups running open homes events, which are a great way to inspire action by showcasing energy saving improvements made by householders to their own homes.

See www.greenopenhomes.net.

Green Open Homes is managed by CSE in partnership with Bristol Green Doors. It's funded by the Department of Energy and Climate Change and supported by Forum for the Future, the National Trust, Transition Network and the Association of Environmentally Conscious Builders

The session will include:

- Talks from groups who have delivered their own successful open homes event.
- Talks about local energy efficiency projects.
- A guide to resources available to support local energy efficiency projects.
- An introduction to **Green Open Homes**.
- A chance to share project ideas and receive guidance from experts.

We're flexible!

Attendees are invited to attend all of the talks or simply drop in at any time to chat to us.
