

DIRTY

# SOILED PANELS LOSE 30% ENERGY

OUR SOLAR COATING KEEPS YOUR PANELS CLEAN

Solar Panels become soiled over time, resulting in up to 30% energy production loss.

**SOLAR COATING** to enhance your solar panel efficiency

- Proven with over 10,000,000m2 installed globally
- Super Hydrophobic; creating non-stick, self-cleaning effect
- Anti-Static surface characteristics
- Reducing reflection; enhancing light passage, greater energy production.
