 **WHAT THEY SAID**

"We have had a trying year and cut back on networking and memberships but chose to stay with SWM as we see the value of being in a group of likeminded businesses. We are first and foremost focused on saving carbon and the SWM has strong directives that marry up with our core beliefs". CEO and Founder of Optimise Energy

"Collaboration with other SWM members presents the perfect opportunity to develop new and innovative solutions that deliver shared benefits and enhances our reputation as a world leading University." - University of Birmingham
