

sustainability west midlands

Our networks bring together experts and practitioners in sustainability from the West Midlands and beyond

Sponsor one of our networks

Get your voice heard by providing support to one or more of our networks. Our offer is flexible depending on your budget and provides a combination of the following:

- Promotion of your news, events and case studies to relevant network members. (Currently over 600 individuals and 1000 SME's)
- Network with specific sectors and thematic experts at a several events each year.
- Bring your banner and literature to all network associated events.
- Get your logo onto all network associated events.
- Help to shape network event topics and themes— what do you want to engage with our networks about?

What they said...

“Severn Trent has worked closely with SWM for many years and are members of the organisation. The networks run by SWM are extensive and cross-sector. By working with SWM and contributing to their events through funding and sponsorship we can share our messages, engage with key stakeholders and demonstrate leadership in the sector. It also provides us with an opportunity to showcase our progress on climate change and corporate responsibility to a range of customers.” – Neil Liddell-Young
